## PROFESSIONAL SUMMARY

Experienced Architect and Project Manager with 15+ years of professional practice delivering residential, commercial, institutional, industrial, agricultural, and government projects across Nigeria. Strong capability in managing projects from concept design through construction and handover, ensuring alignment between design intent, functionality, cost, and buildability.

Proven background working within design studios, hybrid studio-site environments, and public-sector projects, with excellent stakeholder coordination and on-site supervision skills. Highly adaptable, detail-oriented, and committed to delivering context-responsive, human-centered, and buildable architecture.

---

## CORE SKILLS & COMPETENCIES

## PROFESSIONAL EXPERIENCE

### **Architect Design Lead (Hybrid)**

#### Design Modules

Nigeria | June 2013 – February 2025

Worked in a hybrid studio and site-based role delivering architectural solutions across residential, commercial, institutional, mixed-use, and industrial projects. Actively involved in concept design, technical development, coordination, and construction-phase execution.

#### Responsibilities

- Led architectural concept design, schematic design, and design development based on client briefs and site conditions.
- Prepared and coordinated construction drawings, specifications, and approval submissions.
- Conducted space planning, zoning, and functional layout studies.
- Coordinated architectural outputs with structural, MEP, and quantity surveying consultants.
- Participated in site supervision and design coordination, resolving construction-related design issues.
- Presented design proposals and progress reports to clients and stakeholders.

#### Key Contributions

- Supported delivery of multiple projects from concept to construction.
- Improved alignment between design intent and site execution through consistent coordination.
- Maintained high standards of design quality and technical accuracy.

## **Architect | Project Lead**

Unova Designs

Nigeria | 2010 – Present

- Led architectural design and project delivery across residential, commercial, agricultural, industrial, and public-sector projects.
- Developed concept designs, schematic layouts, design development packages, and construction documentation.
- Managed multidisciplinary teams and coordinated external consultants.
- Conducted regular site supervision to ensure compliance with approved drawings and specifications.
- Managed client engagement, presentations, and regulatory approval processes.

### Achievements

- Successfully delivered multiple multi-million-naira projects across diverse sectors.
  - Strengthened project delivery through effective design coordination and site oversight.
- 

## **Project Manager | Architect**

Totalum Limited

Awka & Enugu, Nigeria | Contract Role

### Key Projects

- Awka Government House Project
  - Enugu Multi-Purpose Development Project
  - Managed large-scale government and institutional projects with responsibility for project coordination and architectural oversight.
  - Coordinated contractors, consultants, and government stakeholders.
  - Oversaw project schedules, site activities, quality control, and regulatory compliance.
  - Ensured delivery in line with approved designs, timelines, and quality standards.
-

## Architect | Project Architect

Independent & Collaborative Studio Projects

Nigeria | 2008 – 2010

- Supported lead architects in concept design, space planning, and technical documentation.
  - Prepared planning approval drawings and construction documents.
  - Participated in design reviews and site coordination activities.
- 

## PROJECT EXPERIENCE SUMMARY

- Government & Institutional Buildings
  - Commercial & Mixed-Use Developments
  - High-End Residential Projects
  - Industrial & Agricultural Facilities
  - Renovations & Adaptive Reuse Projects
- 

## EDUCATION

Bachelor of Science (B.Sc.) in Architecture

Enugu State University of Science and Technology
